Wall Street Suffers a Reaction From Wednesday

Prominent Stocks.

New York, May 12.-The natural reaction from yesterday's buoyant tendency in Wall street was suplemented today by some positive elements of depression, as a consequence of which prices generally ruled below yesterday's level all day. The serious view of the affair at Cardenas. In spite of all assurance that the loss incurred was trivial from a military standpoint, the shedding of first American blood had a depressing effect which no amount of reasoning could destroy. There was, besides this, an unsettling conviction that yesterday the Spanish Cape Verde fleet had certainly returned to home waters. A reaction in Spanish fours in London and Paris also dissipated some o the impressions that the recent advance foreshadowed a move toward peace by Spain. The absence of authoritative re ports from Admiral Sampson and his fleet induced some hesitation among street dealers in stocks. Such a stubborn resistance was shown, however, to the first dip of prices that extreme caution was developed about putting out short contracts. The market displayed an equal rejuctance to advance with any degree of vigor. Covering by shorts in the late dealing overcame a portion of the losses, but net declines are a point or over in many of the prominent stocks. There were special stocks scattered through the list that maintained a show of strength, notably Consolidated Gas, which rose buoyantly at one time ! points.
